PROFESSIONAL EXPERIENCE

Open Source Maintainer

Epicenter (YC S25)

Aug 2025 – Present

Remote

- Maintain and extend frontend for a YC-backed open-source developer tools platform, shipping production features and managing issues.
- Collaborate directly with the founder on UX decisions, roadmap planning, and rapid iteration cycles.
- Contribute fixes and enhancements through pull requests and actively participate in issue discussion.

Software Engineer Intern

Userology

Aug 2024 – Jan 2025

Remote

- Built secure authentication flows using **Firebase** and **Next.js**.
- Improved **WebRTC** video call performance by 30% through debugging, profiling, and optimization.

Software Developer Intern

VaySolar

Nov 2023 – May 2024

New Delhi, India

- Developed vendor, admin, and customer dashboards with real-time tracking and data visualization.
- Resolved API and production issues, ensuring stability across development and live environments.
- Implemented UI updates from **Figma** designs and collaborated closely with product and engineering teams.

KEY PROJECTS

Seeva AI Assistant – Cross-Platform Desktop App (Tauri, Rust) | GitHub

2025

- Designed and built a cross-platform desktop AI assistant using **Tauri**, focusing on native performance and responsiveness.
- Implemented system-level features including **global hotkeys**, background processes, and screen-context workflows.
- Integrated multiple AI providers (**Claude**, **OpenAI**, **OpenRouter**) with concurrent chat handling.
- Prepared application architecture for multi-platform builds and future store distribution.

CCUX – Landing Page Generator | GitHub

2025

- Built an AI-powered tool that converts product descriptions into production-ready websites using **Claude AI**.
- Implemented theme selection, live editing, and SEO-optimized output for responsive multi-page sites.

AlertFrame | GitHub

2025

- Developed a visual website monitoring tool enabling users to track DOM changes with instant email alerts.
- Built with **Next.js**, **Supabase**, and **Kernel API** to handle dynamic content monitoring reliably.

OPEN SOURCE & COMMUNITY

- Active contributor to open-source developer tools and documentation.
- Provided technical feedback and reviews for 450+ projects on the Frontend Mentor community.
- Discord Moderator at **Cognee** (Open-Source AI Memory Platform) responsible for technical support and developer engagement.

TECHNICAL SKILLS

Languages: JavaScript, TypeScript, Python, C, C++

Frontend: React.js, Next.js, Tailwind CSS, MUI

Backend & Database: Node.js, Express.js, MongoDB, SQLite

DevOps & Tools: Git, GitHub Actions, AWS, Vercel, Postman, Ngrok, Stripe, Twilio

EDUCATION

Bachelor of Technology in Electronics and Communication Engineering

Maharaja Agrasen Institute of Technology, Delhi

2025

CGPA: 8.0 / 10.0
